Pettit Timber, Inc.

Pettit Timber and Crew,

We can truly say that our experience with Pettit Timber has been a very positive one. In all your operation, you and your crew have shown great care and consideration of our concerns and feelings.

Thank you for all the wonderful work and extra care that you took to complete the cutting of our timber.

Thank you also for the considerate drivers who went slowly on the road so there would be no dust! That meant a great deal to us

Special thanks to Larry who put us right at ease about trying to save our 'special' trees and some that I didn't expect could be saved, but he saved them!!

We know that we are going to be so pleased about having all this daylight and space. I expect that I will have it all planted up in one year!! NO pines though!!!.

Again, thank all of you for all your hard work.

Bill and Glenda Green
